INTRODUCTION

and GENERAL INDEX

★ ★ ★

Henderson Directories Ltd., publishers, present to subscribers and the general public, this, the 1965 edition of the Edmonton City Directory.

Confidence in the growth of Edmonton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Edmonton to the world.

The enviable position occupied by Henderson Directories Ltd. in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Edmonton Directory will fulfill its mission as a source of authentic information pertaining to the city.

FOUR MAJOR DEPARTMENTS

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Edmonton. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Edmonton the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Edmonton, and the name, official personnel, nature and address of each firm and corporation in the city.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes and the designation of homes and places of business having telephones.

MUNICIPAL PUBLICITY

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Edmonton.

Respectfully, The Publishers,
HENDERSON DIRECTORIES LIMITED

Publishers' Note

The information in this directory is gathered by an actual house to house canvass, and is complied in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

GREATER EDMONTON

Canada's Oil Centre and Capital of the Province of Alberta

STATISTICAL INFORMATION

(By Courtesy Edmonton Chamber of Commerce)

POPULATION—
Edmonton's population as of January, 1965 was 357,696, while the population of Greater Edmonton was 373,000.

AIRPORT—
The Edmonton Industrial Airport comprises 750 acres, with 3 one-mile long concrete runways, 16 hangars, 200 small buildings, and employs, over 1,000 people.

ALTITUDE—
2,182 feet; in the river valley 2,046 feet.

APARTMENTS AND BLOCKS—
Over 1,100.

AREA—
85.6 square miles.

BUILDING PERMITS—

1947—$13,182,665	1956—$69,406,035
1948— 27,123,329	1957— 64,344,758
1949— 40,050,063	1958— 72,517,144
1950— 46,579,372	1959— 70,907,538
1951— 36,394,684	1960— 56,166,520
1952— 37,066,526	1961— 68,678,700
1953— 55,023,816	1962— 90,266,889
1954— 68,329,716	1963— 75,779,745
1955— 58,718,686	1964—100,854,661

CHURCHES—
258 representing practically all denominations, including a Mohammedan Mosque.

CITY STATISTICS—
766 miles of paved streets; gravelled 564; oiled roads 122.
1208 miles of sidewalks.
1074 miles of water mains.
1282 miles of sewers.

EDUCATIONAL—
98 Elementary and Junior High Schools.
8 Senior High Schools—these are administered by Edmonton Public School Board.
10 Colleges and University of Alberta.
52 Separate Schools — administered by the Separate School Board.

FINANCIAL INSTITUTIONS—
5 Chartered Banks; with 104 branches.
13 Trust Companies; 33 Loan Companies.
7 Alberta Treasury Branches.
Industrial Development Bank.

FIRE DEPARTMENT—
44 pieces of equipment.
10 Stations staffed by a personnel of 542, operated on the 3-platoon system.

FORM OF GOVERNMENT—
The City of Edmonton is governed by a Mayor and 12 Aldermen and by four City Commissioners, one of whom is the Mayor.

GOLF COURSES—
12 (10 Private and 2 Public Courses)

HOSPITALS—
11 with approx. 5,000 beds.

HOTELS & MOTELS—
65 Hotels and Motor Hotels and 53 Motels.

LIBRARIES—
One public library and 5 branches, and 4 Bookmobiles.

NEWSPAPERS—
1 daily and 8 others.

NATURAL GAS—
Proven natural gas reserves in Alberta rose from 9 trillion cubic feet in 1950, to over 34 trillion cubic feet in 1964.

PARKS AND PLAYGROUNDS—
4,812 acres, including playing grounds, parks, tot lots, etc.

POLICE DEPARTMENT—
One main station and one sub-station; staffed by 539 officers and men, 51 civilian employees, 87 radio-equipped mobile units.

POPULATION—(Greater Edmonton)

1900	4,000	1956 Dom. Cen.	248,949
1906	14,000	1957	262,000
1921	58,827	1958	282,000
1930	77,557	1959	303,000
1941 Dom. Cen.	97,842	1960	317,526

1955	230,000	1965	373,000

TAXABLE ASSESSMENT—

1944—$ 69,924,660	1955—$232,258,500
1945— 73,593,500	1956— 255,293,650
1946— 77,248,215	1957— 272,016,350
1947— 83,376,715	1958— 291,377,370
1948— 90,834,775	1959— 311,820,740
1949— 100,367,870	1960— 329,190,050
1950— 120,413,310	1961— 362,511,825
1951— 134,416,570	1962— 523,380,300
1952— 179,267,230	1963— 551,035,150
1953— 180,703,740	1964— 570,373,040
1954— 198,774,110	1965— 630,883,150

TAX RATE—(1964)
47.25 mills. 1965—48.5 mills.

TRANSPORTATION—(Edmonton Transit System)
295 Trolley and Motor Buses, and 35 School Buses.
587 employees, covering 367 route miles.

THEATRES—
15 Theatres and 6 Drive-In Theatres.

UTILITY CONNECTIONS—
89,356 electric meters.
81,923 gas consumers
160,000 telephones.
81,002 water meters.

GREATER EDMONTON

Miscellaneous Information

(By Courtesy Edmonton Chamber of Commerce)

In 1954, Edmonton celebrated its 50th Birthday as a City; while 1955 was the 50th Birthday for the Province of Alberta, its Jubilee year.

Modern Edmonton began in 1871, when the Rev. Geo. McDougall, a Methodist Missionary, built his mission outside the palisades of old Fort Edmonton, on the present site of what is now McDougall United Church. The history of the capital city of the Province of Alberta began in 1794, when the Hudson's Bay Company and the North West Fur Company built rival trading posts on the Saskatchewan River, about twenty-five miles below the present site of the City. These forts were destroyed by the Blood Indians in 1807, and rebuilt in 1808, but very little is known of the history of Fort Edmonton between that time and when Fort Edmonton was established on its present site, in 1819. Some years later Chief Factor John Rowand was placed in charge and built the largest establishment west of York Factory, with stockades twenty feet high, complete with bastions and cannon, which became known as "Rowand's Folly," but which, nevertheless, was the trading centre for the vast Saskatchewan and Athabasca valleys.

In the years which followed, Fort Edmonton was visited by Sir George Simpson, Governor of the Company of Gentlemen Adventurers Trading into Hudson's Bay, who was implored by the Blackfeet Chiefs to "grant that their horses might always be swift, that the buffalo might abundantly abound, and that their women might live long and always look young." Other visitors included Paul Kane, famous Canadian artist; Captain John Palliser and James Hector, of the Palliser Expedition, looking for a railway pass through the Rocky Mountains; Lord Milton and Dr. Cheadle, on behalf of the Royal Geographical Society; and in 1872, Sanford Fleming, C.E., with his party, reached Edmonton on the first trans-continental railway survey via the Yellow Head Pass.

Edmonton is beautifully situated on the banks of the North Saskatchewan River, in the midst of rich, rolling evergreen country and is surrounded by a populous community carrying on mixed farming on small acreages. To the northwest is the Peace River Country, the last great hinterland of agricultural and mineral resources, well-known for its prize-winning crops and its success in world grain competitions. But Edmonton's trading territory extends beyond the Peace River Country, into the Yukon Territory and right into Alaska. To serve the community of Yellowknife and the Northwest Territories, the Mackenzie Highway has been jointly constructed by the Government of the Province of Alberta and the Dominion of Canada.

Aerial view of the North Central portion of the City of Edmonton showing government buildings and some of the newest "high-rise" apartment buildings.

LOCATION AND ADVANTAGES

Edmonton (latitude 53-35; longitude 113-30) is located 318 miles north of the boundary between Montana and Alberta; 200 miles east of the Rocky Mountains; 770 miles from Vancouver, via the Canadian National Railways and Jasper; 840 miles on the Canadian Pacific Railway via Banff and Calgary; and about 800 miles west of Winnipeg.

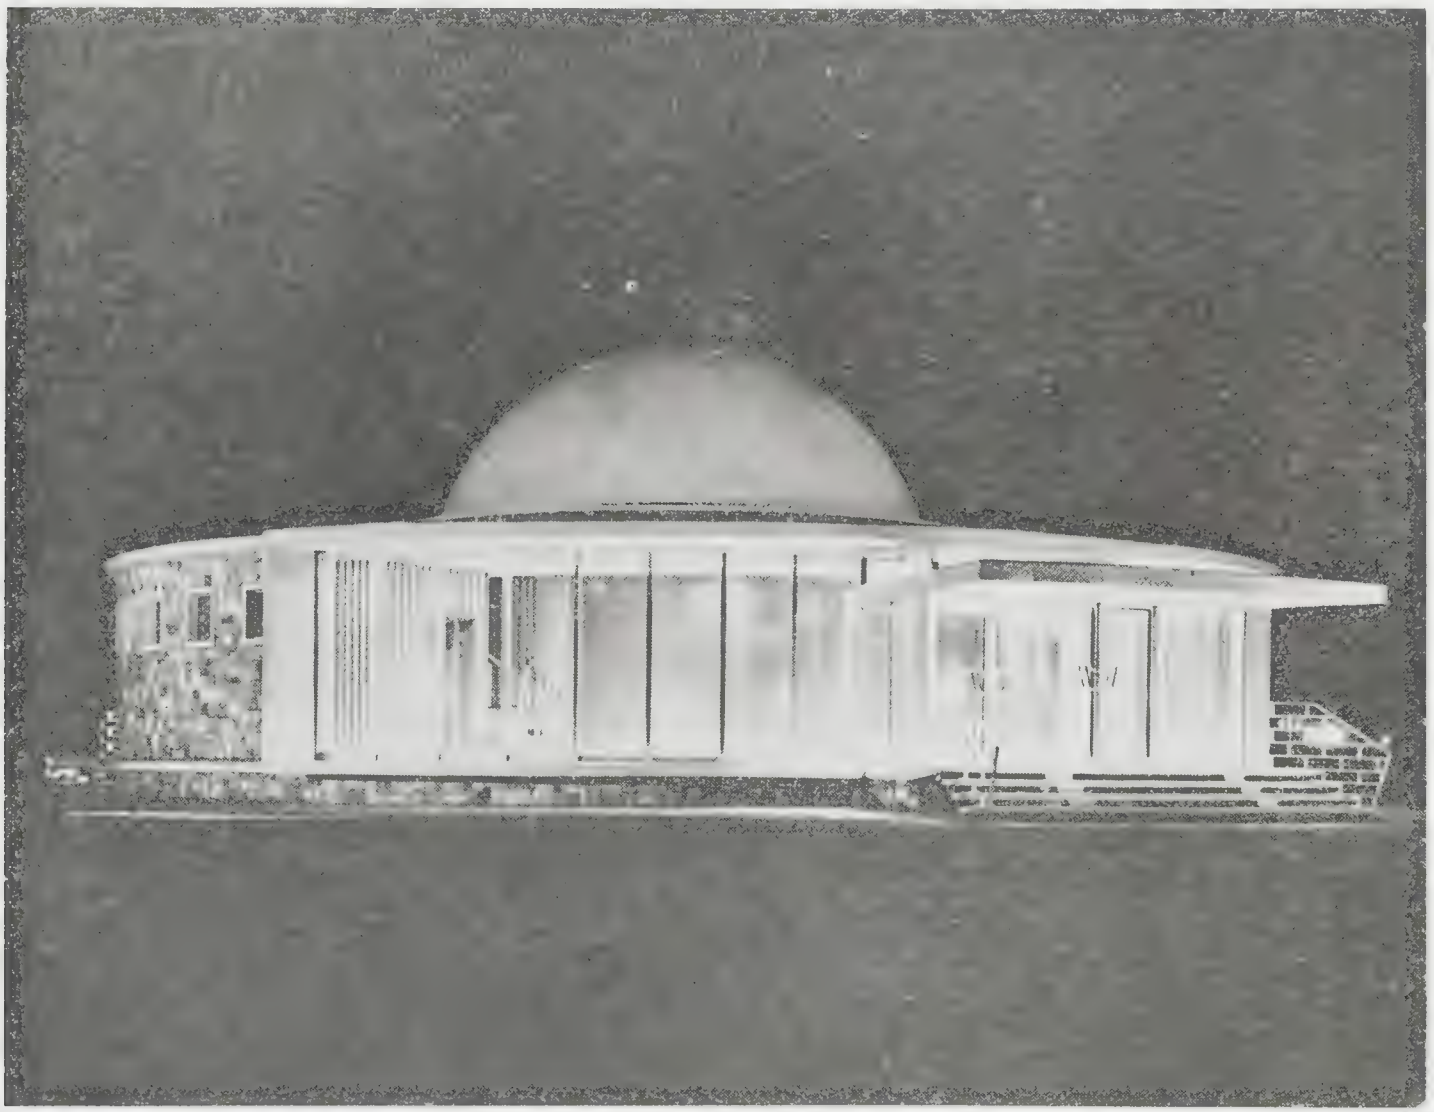
It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and containing at the present time over 600,000 people, distributed on the farms and in the towns and villages of Central and Northern Alberta, with the centre of population for the province about forty miles to the south. Population of the Province is 1,410,000.

The City is also an important highway centre. A good highway, completely hard surfaced exists from Edmonton to Jasper Park, 248 miles to the west, thence via the famous Sunwapta Highway, or the Banff-Jasper Highway as it is more commonly known, to Lake Louise and Banff. The widely publicized Alaska Highway, over 1,600 miles in length from Dawson Creek, British Columbia, to Whitehorse and Fairbanks, has highway connection with the City. Since the Alaska Highway was taken over by Canada it has been kept open the year-round, and thousands of tourists, not to mention freight trucks and buses are continuously plying its entire length.

The completion of the Whitecourt-Valleyview cut-off, late in 1955, shortened the distance between Edmonton and Dawson Creek by about eighty miles.

HOTELS AND ACCOMMODATION

The City has numerous hotels, motels, auto courts, apartment houses and private boarding houses catering to every class of tourist and traveller.



PARKS AND RECREATION

Edmonton offers many facilities to its citizens for leisure time activities, which are provided by Municipal, Community, Private and Commercial agencies. There are activities to suit the desires and interests of all persons regardless of age, ranging from Professional Football, Amateur Athletics and Sports, Golf, Ice Hockey and Skiing, to Concerts, Theatres, Family Picnics, Hiking and other less active pursuits.

The City's Park and Recreation Department is charged with the responsibility for providing and operating City parks and recreational facilities. This includes the organization, program and supervision of recreational activitities.

PRINCIPAL PARKS

Borden 50 acres, Coronation 88 acres, (still under development), beautiful Queen Elizabeth 120 acres, and White Mud 240 acres, Kinsmen Park 53 acres, the lovely river valley areas, Emily Murphy 20 acres, and Government House 9 acres, the home of the Eskimos, Clarke Stadium, Renfrew Ball Park, South Side Athletic Grounds, and many other park and recreation areas. In addition, the City has 72 playgrounds and tot lots, complete with sand boxes and children's play equipment and 29 wading pools. There are Community Leagues organized

—Photo by Marshall

Edmonton's Queen Elizabeth Planetarium is the only Public Planetarium in Canada.

under the Federation of Community Leagues, which provide facilities for ice hockey and skating, and other neighborhood recreational activities.

STORYLAND VALLEY

This delightfully designed 4 acre childrens zoo is located in Laurier Park in the river valley, it is the first step in the development of a 100-acre zoological gardens. Storyland Valley is a childrens wonderland, complete with characters from Nursery Rhymes and children's stories, a miniature railway, stagecoach and carousel, plus hundreds of interesting animals, all housed in fascinating structures and pens which are built to a childs scale. The Zoo is a great favourite with young and old alike and it is open from May to September each year.

QUEEN ELIZABETH PLANETARIUM

Edmonton "Theatre of the Stars," is Canada's only public planetarium. It was erected by the citizens of Edmonton to commemorate the Royal Visit of Her Majesty Queen Elizabeth II and His Royal Highness Prince Phillip to Edmonton in 1959.

MUNICIPAL SWIMMING POOLS

There are two indoor pools, open throughout the year, and four outdoor pools, open during the summer and early fall. All the pools are modern, fully equipped and supervised.

GOLF COURSES

Golf enthusiasts find that the beautiful North Saskatchewan River Valley, and the bright sunny days and long twilight hours provide ideal conditions for golfing.

Victoria Course—(18 hole Municipal) is located east of Groat Bridge along the north bank of the river, the steeply rising green banks and the river provide a perfect setting for this fine course.

Riverside Course—(18 hole Municipal) lies east of the Dawson Bridge, comprising of 160 acres of the most beautiful scenery in the river valley, and is within one mile of the McDonald Hotel.

Both municipal courses have excellent club houses, pro shops and all the facilities associated with a first-class course.

Edmonton Golf & Country Club—(18 hole private) occupies a beautiful site along the river banks approximately eight miles south-west of the City.

Mayfair Golf Club—(18 hole Private) is situated in the river valley just below and beyond the University of Alberta, it is a lovely course in a perfect setting.

Highlands Course—(18 hole Private) is located in the east portion of the river valley along the north banks.

Derrick Golf and Country Club—(18 hole Private). This is a new course located south-east of the City. There is a swimming pool and curling rink, in addition to a magnificent up to date club house.

Hill Crest Country Club—(Private), is located on the river flats in the western part of the valley. Several facilities are being developed, including, riding, swimming and archery.

Kinsmen Park—(18 hole par 3, pitch and putt Course—Municipal). One of the finest and most interesting courses of the par 3 type. Located west of the High Level Bridge along the beautifully treed north bank of the river valley.

—Photo by Wells Studios

Young and old alike enjoy the Childrens Zoo—Storyland Valley.

C.N.R. Tower to be located immediately East of the present C.N. Station and adjacent to the new Postal Terminal.

OTHER FACILITIES

Edmonton has many fine Motion Picture Houses, providing the best in up to date film shows.

The 80 acre Exhibition Grounds are the home of the Klondike Days, which attracts thousands of exhibitors, livestock breeders and visitors from across Canada, and from many states in the U.S.A. Horse racing is also featured at the Exhibition Grounds during Spring, Summer and Fall meets.

The fine Jubilee Auditorium located close to the University campus, is a major cultural centre. Concerts, operas, recitals, musical comedies, ballet, exhibitions and film shows may be seen throughout the year.

NATURAL GAS

Edmonton has an abundant supply of natural gas, supplied to householders at the lowest rate on the North American continent, sufficient for at least fifty years, according to present estimates, for both householder and industry. The present sources of supply are piped to the City from the Viking and Kinsella fields, about eighty miles east.

CENTRE OF TRANSPORTATION

Edmonton is the centre of transportation for Alberta, from which radiates a network of railway lines extending northwesterly into the Peace River area, and via the Great Slave Lake Rly., to Pine Point in the N.W.T., and northeasterly to Waterways, as well as eastward and westward to the borders of the province, and southward through a rich agricultural farming area. Transcontinental lines of the Canadian National Railway pass through the City, and the Canadian Pacific Railway makes contact with many points through which the transcontinental lines of that company pass.

The Airways development of the continent has brought the City into prominence as one of the strategic centres of air transportation. The great north country is provided with regular freight and passenger schedules and a number of charter aircraft companies also are based in the City.

Edmonton has a Class "A" airport, equipped with modern concrete runways and capable of handling large aircraft, located within five minutes' drive from the heart of down-town Edmonton. At Namao, seven miles north, is one of the largest military airports on the continent.

The new international airport built at Nisku, 15 miles south of the City is now operational. With jet aircraft of the future in mind, runways are over 10,000 feet in length and operational. It is the third largest airport in Canada.

EDMONTON CHAMBER OF COMMERCE

The Chamber is this year celebrating its 76th year of community service, and its membership of over 1,900 is comprised of professional, industrial, commercial and agricultural interests. Information on all matters relating to the resources of the district, business opportunities, and general information of all kinds, is freely given by a competent staff, located at 9905 101A Ave.

EDMONTON AREA INDUSTRIAL DEVELOPMENT ASSOC.

The Edmonton Area Industrial Development Association was formed for the purpose of providing guidance, advice, information and practical help for those wishing to establish a new business, or a branch of a present business, in the 4,100-square-mile area around, and including, the City of Edmonton. Working in harmony with the provincial government and in co-operation with the Edmonton District Planning Commission, the Association will supply an advisory service in regard to present advantages and facilities, detailed information on markets, industrial sites and premises, raw materials, labour, power, transportation, taxation and all factors pertinent to the establishment of industry. The Association represents all major cities, towns, villages and municipal districts within the region which includes The City of Edmonton; The Towns of Devon, Leduc, Jasper Place, Fort Saskatchewan, New St. Albert, Calmar, Stony Plain; The Municipal Districts of Strathcona, Stony Plain, Leduc and Lac Ste. Anne. It also represents the Chambers of Commerce of Edmonton, Jasper Place, Stony Plain, and other interested organizations and companies. For information write 10830 Jasper Ave.

WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the northwest makes it an important distributing point for a large territory: From the earliest times, it was a natural trading centre—in the days of the fur trade, it was the principal point west of Winnipeg on the navigation on the North Saskatchewan River. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched.

RETAIL SHOPS

As befits a City serving so large a community, Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands of larger and older cities in the display of things new and beautiful. They range from big departmental stores to the small specialty shops. In keeping with the City's growth, local shopping centres are developing designed as a grouped unit in various new residential Neighborhood Units together with large planned district shopping centres midway in function between the local centres and the general large, central downtown shopping area. Off-street parking facilities are a prime requisite in the design of such centres and these are being achieved as integral parts of all new shopping centres both local and district, in this City.

Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms, the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

INDUSTRIAL GROWTH

Benefitting from a balanced economy and a history of sound growth, Edmonton has been given a tremendous push from the boom which followed the discovering and production of oil and natural gas in this area.

Now moving into the second stage of diversification and planned development program, Edmonton continues to lead all the cities of Canada in its rate of growth.

Prior to the oil discovery, the productive agricultural land had brought about a steady population growth and the 1950 census indicated a metro population of 162,978. During the next 10 years the population rose to 317,528 — a gain of 78.2 per cent, to lead all metropolitan centres in Canada.

Manufacturing value in Edmonton had increased from $119,447,681 in 1950 to more than 492 million in 1964. There are now more than 500 manufacturing firms in the city.

The leading groups of manufacturers, according to value are:

1. Food and beverages.
2. Iron and steel products.
3. Chemical and allied products.
4. Wood products.

The growth opportunities in each and every field of industry continue to be outstanding. Here is an analysis of the potential:

Process industries with a petroleum or natural gas base have increased rapidly since 1947 and there is definite opportunity for further industry of this type and for secondary manufacturing or service companies in this field.

The exploration and growth of Alaska and the great Canadian North have brought about in Edmonton a parallel of service companies in lines such as geophysical instruments, prospecting equipment and mining machinery. This expansion will increase with the intensive development activities underway.

The agricultural productivity of the surrounding areas and the rapidly increasing population offer potential to food and beverage companies.

Edmonton's importance as a Meat-packing centre indicates that the products, by-products and waste materials offer an opportunity for manufacturers who can make use of them.

The growth of Alberta into the million-plus population bracket and the pace-setting population expansion of Edmonton offer possibilities for light manufacturing companies in the market-oriented lines. Excellent transportation facilities make feasible other opportunities for branch plants designed to serve a regional market.

Building materials offer another definite growth opportunity. After setting successive records in 1958 and 1959, building declined slightly in 1960 — then in an amazing spurt it once again rose to record heights. Value of metropolitan area construction in 1964 equalled some $115,132,368.

Characteristic of frontier territories, the Edmonton area is receptive to modern technology in products such as computor systems, company airplanes, and other innovations of this type.

In short, Edmonton is a city of proven attraction and even greater potential, located as it is on the last great frontier of North America — the North!

AGRICULTURE

Edmonton is the centre of the largest area of agricultural land of any city in Canada. In the outlying districts much of the land is still in the raw state, but is gradually being brought under cultivation. The finest quality of wheat, oats, barley and peas are grown, with Edmonton District farmers making a name for themselves and the area by their winnings at the Chicago International Grain and Hay Show; in fact, in 1941, the Grand Championship for wheat was awarded to a farmer, part of whose acreage was within the City Limits.

A Grain Centre

Edmonton is the centre of the grain trade for Central and Northern Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada are represented on the Edmonton grain market.

Edmonton Livestock Yards

One of the public terminal livestock markets of Canada is located in Edmonton, and operated under government supervision.

Dairying

Agriculture in the Edmonton District is developing rapidly along mixed farming lines, and a wealth of farms in the area supply butterfat to the four large, modern dairies which export butter, cheese and other dairy products. The City is also the export centre for dehydrated eggs and poultry.

FUEL

Coal

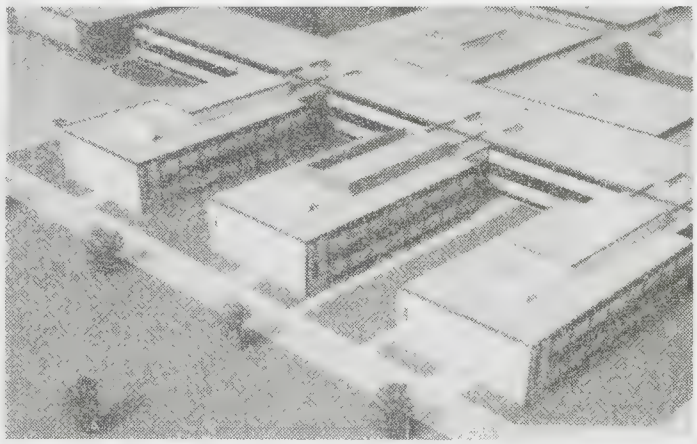
A substantial part of Alberta's tremendous coal reserves of 46½ billion tons, by far the largest part of Canada's undeveloped coal resources, is contained in the Edmonton area.

Oil and Asphalt

The discovery of oil west of Leduc, in February, 1947, and about twenty miles southeast of the City, and the vast developments which are taking place, day by day, with many allied companies to the industry already having established in Edmonton, is changing Edmonton's economic outlook. In addition to Leduc and Woodbend, across the Saskatchewan River from the Leduc productive field, oil was discovered in the fall of 1948 at Redwater, thirty-five miles northeast of the City, and present indications are that oil underlies the whole of the area. Close to 9,250 wells were capable of producing oil at the end of 1959. Vast new areas are being opened up, with some 1,900 producing wells in the Pembina area: 460 in Joarcam: 900 in Leduc; with the Sturgeon Lake area being served by a pipe line. Known oil reserves are calculated to be 3.75 billion barrels. Exploratory and development work is being carried out by major Canadian oil companies, with ever-increasing interest by American concerns. Oil now flows from the Edmonton area to Sarnia Ont., and westward to the Pacific Coast, while a gas pipe line is contemplated to Eastern Canada.

Two hundred and fifty miles north of Edmonton, in the vicinity of McMurray, there is a vast area of bituminous sands, which are now being developed.

EDUCATION



Edmonton, the capital city of the Province of Alberta, is not only the seat of the provincial government, but is also the home of the University of Alberta, which in 1964-65 had an enrolment of 9,436. The University has a full range of faculties including Agriculture, Arts & Science, Commerce, Dentistry, Education, Engineering, Graduate Studies, Law, Medicine, and Pharmacy. These faculties have received country-wide recognition and some of them have been the recipient of endowments from many international and national foundations. The City is well supplied with elementary, intermediate and high schools. A large technical and vocational school program is presently underway in Edmonton, and in addition, several privately-owned and operated business colleges are engaged in educating commercial students.

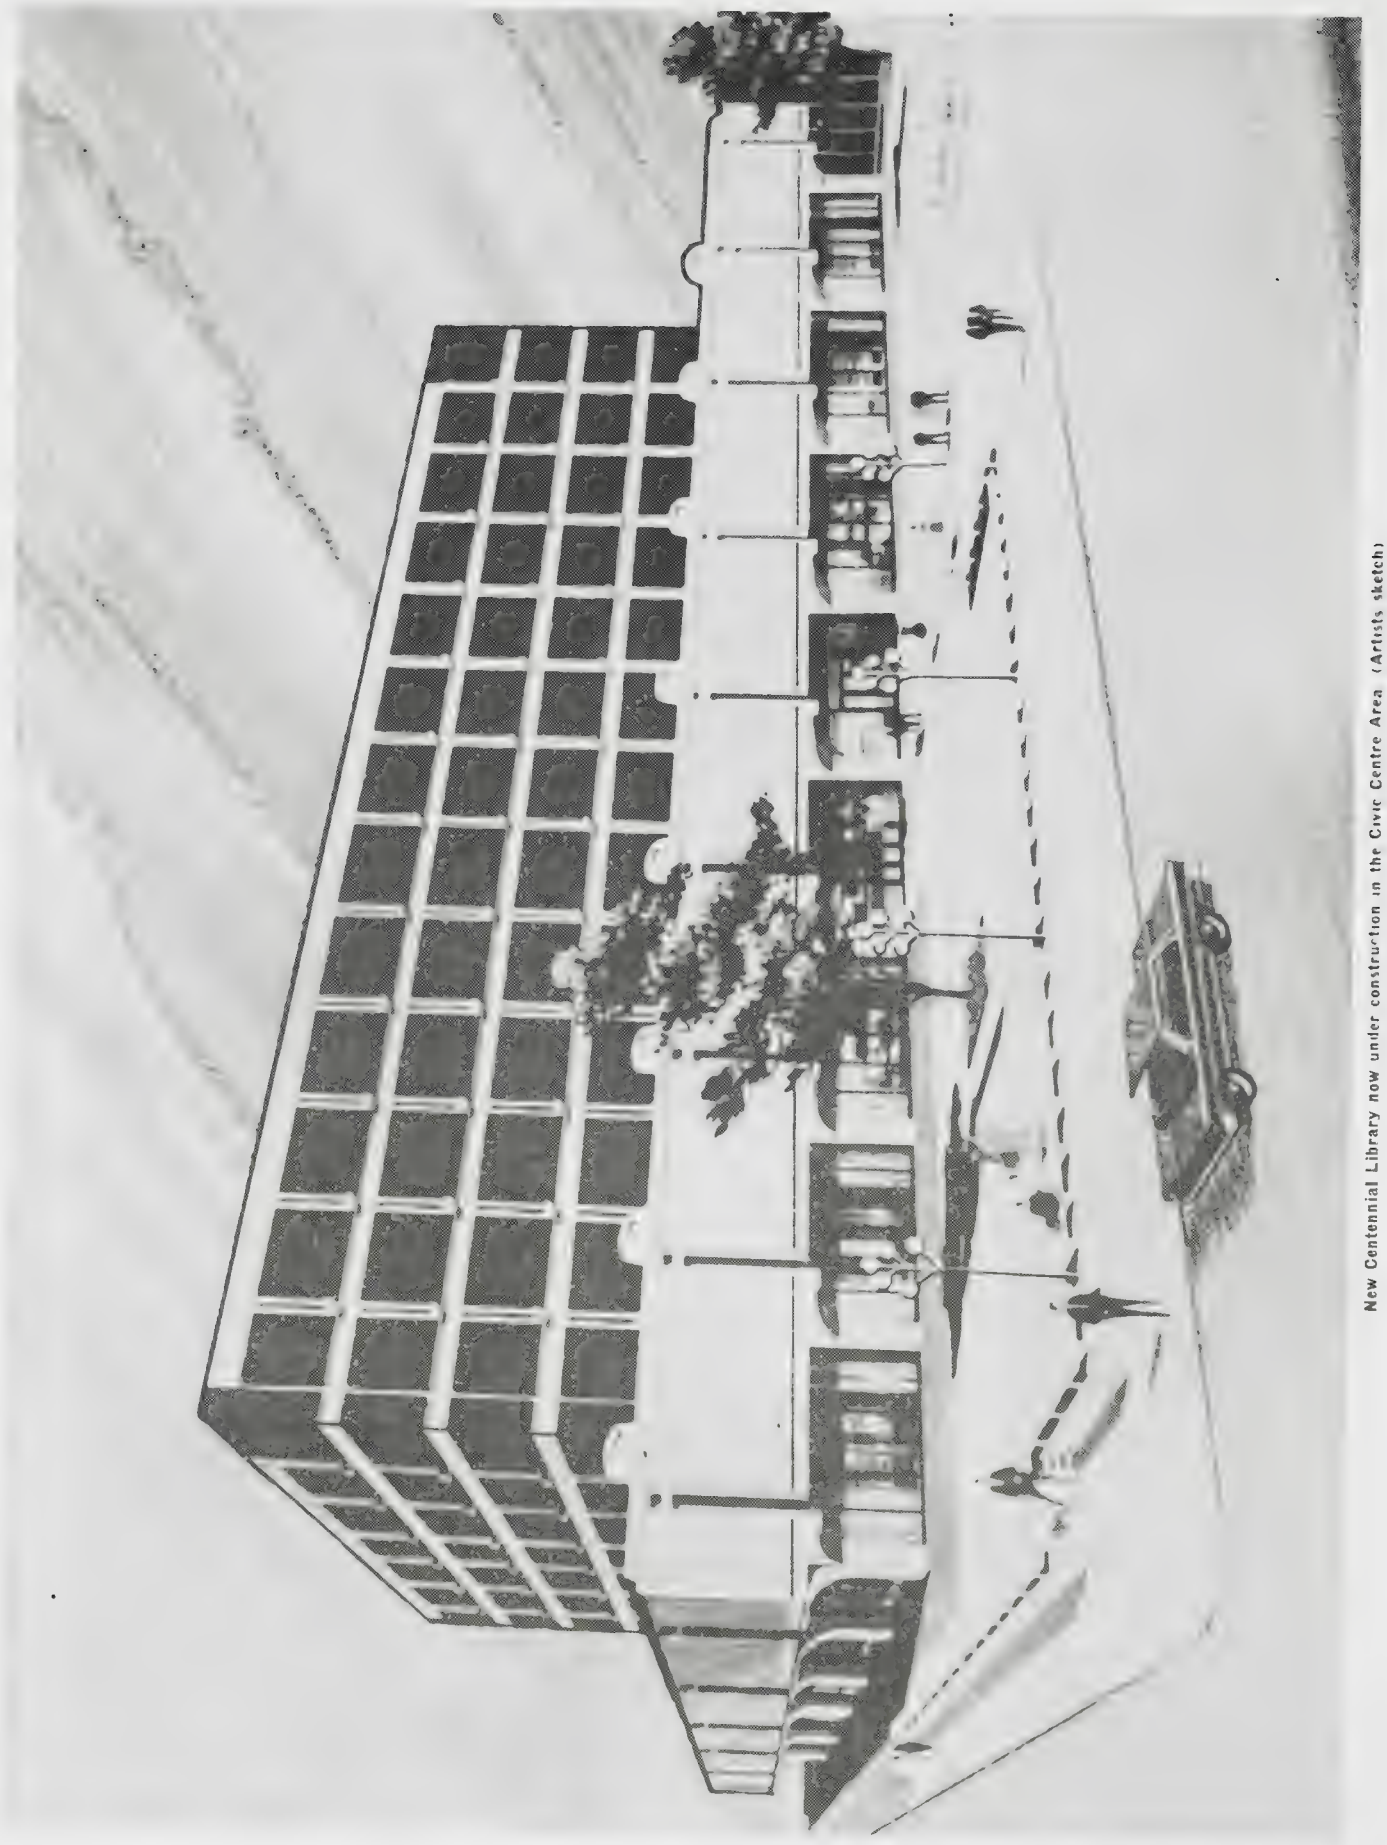
NORTHERN ALBERTA INSTITUTE OF TECHNOLOGY

The Northern Alberta Institute of Technology, or NAIT as it is sometimes described, is located in the City of Edmonton, Alberta, and is the largest school of its kind in Canada today. The school's facilities are capable of handling a total enrolment at one time in excess of 2,500, with a maximum yearly enrolment of 10,000.

The Institute is divided into four major divisions, the Apprenticeship Division which offers instruction in twenty different trades, the Technological Divison which covers post-High School, offers Diploma Courses in eighteen different vocations, the Business and Vocational Division which offers training in six different areas, and the Evening Division which will not be in complete operation until 1964.

Full information may be obtained by writing to the Registrar of the Institute.

Northern Alberta Institute of Technology.



SOCIAL AMENITIES

Libraries

The City has 5 branches and 1 main library, containing 182,000 volumes. 4 Bus Bookmobiles have been equipped as travelling libraries to serve outlying districts, which have over 25,000 volumes on their shelves, making 28 book stops through the City.

The Provincial Library, situated in the Parliament Buildings, is rich in works and documents relating to the early history of Western Canada.

Libraries are also maintained in the School of Education and the University of Alberta, namely the Rutherford Library, which contains 120,000 volumes for the use and reference of students at these institutions.

New Centennial Library now under construction in the Civic Centre Area (Artist's sketch)

HOSPITALS

Edmonton's position as a medical centre is one of no mean proportions. It has 11 hospitals with a total of 5,000 beds, attracting specialists in every branch of medicine and surgery, who, in turn attract thousands of patients to the City from the surrounding areas. Among the hospitals are the Royal Alexandra and Isolation (municipally owned), the General, operated by the Grey Nuns, the Misericordia, by the Sisters of the Misericord, St. Joseph's by the Sisters of Providence, and the University Hospital under the direction of the Provincial Government. In addition, there is a branch of the Provincial Mental Institute and a special hospital, operated by the Provincial Health Department, for victims of infantile paralysis, not to mention special treatment in the Aberhart Memorial Hospital for tuberculosis patients. The Colonel Newburn Pavilion of the University Hospital, has accommodation for members of the Armed Forces.

The City had constructed a new maternity hospital of 112 beds, and the Oliver Mental Institute is in process of adding a further 100 beds. Royal Alexandra Hospital has 776 bed capacity.

CITY GOVERNMENT

Edmonton is governed by a Council of 12 aldermen, elected for two years, presided over by a Mayor, also elected for a two-year term, and a Board of four Commissioners, one of whom is the Mayor.

ELECTRIC POWER PLANT

Electricity is generated by steam produced in a boiler plant, fired by Edmonton district gas.

The power plant supplies electrical energy to all the City's other utilities, such as waterworks, sewage disposal plant, Edmonton Transit and Telephone systems, as well as to the electric light and power department for domestic and commercial distribution.

WATERWORKS

Due to turbidity at high water periods, all water, pumped from the Saskatchewan River, for domestic and industrial purposes is filtered and sterilized before being forced into the city mains. Low-lift pumps, with a capacity of 54,000,000 gallons per day, raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks, to which the proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins, where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds, which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains, it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By using such means the water supply is clear and pure. A number of years ago it was considered desirable that water for city requirements be softened and a 75 p.p.m. lime and soda ash treatment is now used.

EDMONTON TRANSIT SYSTEM

The street railway system commenced operations in November, 1908, with twelve miles of track and two cars. A program of conversion of street cars to trolley buses and gas buses was completed in 1951 with the attendant removal of street car tracks and additional paving at bus stops. In addition to the trolley buses, diesel, propane and gas buses serve the outlying areas. Some 30,000,000 persons are carried each year by the System.

TELEPHONES

Edmonton embarked in the telephone business in January, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic System was installed, this being the first in all of Canada. Edmonton has continued to be a leader in the telephone field and the present system supplies approximately 160,000 subscribers in the Edmonton area.

There are seven telephone exchanges in the city, this includes a new exchange in the South-West area of the city which was brought into service during 1961. The demand for telephone equipment service has indeed been tremendous in the past decade but the system has kept pace with the demand and is able to provide immediate service on installation of almost all types of subscriber equipment.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad - check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Mr. CITIZEN!

Correct Information Is Valuable To You!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

Use Our Library of

Out-of-Town City Directories

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co.)

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

In the following listings, if av, blvd, ct, rd, etc, is not shown it is understood to be street.
